Notes:

[1] CAHPS measures combine responses to several questions, some of which have different response options (e.g., never, sometimes, usually, or always, and yes, definitely, yes, somewhat, or no). Performance rates [2] A domain improvement score of at least 90% receives 4 Quality Improvement Reward points; ≥80% receives 3.56 points; ≥70% receives 3.12 points; ≥60% receives 2.68 points; ≥50% receives 2.24 points; ≥40% [3] An ACO will be held harmless if their performance on a measure significantly declined, but remained above 90% (or in the case of certain measures, above the 90th percentile benchmark) in both the current year a [4] For P4P measures: Points are calculated based on the ACO’s performance compared to the 2017 quality measure benchmarks; For P4R measures: Full points are awarded if the ACO completely reports.
